Subject index

Acid electrolytes
Effect of the solution composition and the applied potential on the kinetics of roughness relaxation at gold electrodes in slightly acid electrolytes (García et al.) 237
Acoustic emission
Acoustic emission from a palladium electrode during hydrogen charging and its release in a LiOH electrolyte (Azumi et al.) 111
Active–passive transition
A mathematical model for current oscillations at the active–passive transition in metal electrodissolution (Koper, Sluyters) 31
Adsorbed layers
Adsorption studies of octadecyltrimethyl ammonium bromide by electrochemical methods (Krznarić et al.) 341
Adsorption
Adsorption behavior of viologen derivatives on hanging mercury electrode surfaces (Kitamura et al.) 371
Ammonia electrosynthesis
Efficient electrochemical reduction of nitrate to ammonia using conductive diamond film electrodes (Tenne et al.) 409
Amorphous molybdenum sulfide
The electrodeposition of amorphous molybdenum sulfide (Bélanger et al.) 165
Aromatic solvents
Titanium electrodeposition from aromatic solvents (Abbott et al.) 153

Benzene
The influence of the single-crystal orientation on the electrocatalytic hydrogenation of benzene and the H–D exchange (Schmiemann, Baltruschat) 93
Borohydrides
Electrochemical study of uranium (IV) and (III) organometallic compounds in tetrahydrofuran by means of conventional microelectrodes and ultramicroelectrodes. Part II. Application to borohydride compounds—study of the stability of $Cp_2U(BH_4)_2$ (Hauchard et al.) 399

Cadmium telluride thin films
In situ compositional analysis of electrosynthesized cadmium telluride thin films by electrochemical quartz crystal microgravimetry (Wei et al.) 223
Catalysis
Study of the relationship between voltammetric behaviour and electrocatalytic activity in the reduction of ClO_4^- ions at platinized platinum electrodes (Bakos, Horányi) 383
Catalysts
Modulation of the function of an enzyme immobilized in a conductive polymer by electrochemical changing of the substrate concentration (Haruyama et al.) 293
$CdSe + TiO_2$
Electrochemical rectification in $CdSe + TiO_2$ coupled semiconductor films (Liu, Kamat) 451
Chemically modified electrodes
Electroanalysis of lipoic acid using a carbon paste electrode modified with nickel[II]-cyclohexylbutyrate (Sugawara et al.) 393
Chlorate ions
Study of the relationship between voltammetric behaviour and electrocatalytic activity in the reduction of ClO_4^- ions at platinized platinum electrodes (Bakos, Horányi) 383
Chloride ions
Piezoelectric response to changes in surface stress of a palladium electrode in perchloric acid solution containing chloride ions (Seo, Aomi) 185

CO_2 reduction
A novel differential electrochemical mass spectrometer (DEMS) with a stationary gas-permeable electrode in a rotational flow produced by a rotating rod (Fujihira, Noguchi) 457
Current-scan polarography
Transfer of trifluoroacetylacetone across a water/1,2-dichloroethane interface (Doe et al.) 257
Current–time transients
The electrodeposition of amorphous molybdenum sulfide (Bélanger et al.) 165
Cyclic voltammetry
An efficient numerical method of solving integral equations for cyclic voltammetry (Bieniasz) 15
Cyclodextrin pyrrole
Preparation of a poly(cyclodextrin-pyrrole) modified electrode (Lepretre et al.) 465
Cytochrome *c*
Direct electron transfer reactions between immobilized cytochrome *c* and modified gold electrodes (Cooper et al.) 267

Diamond film electrodes
Efficient electrochemical reduction of nitrate to ammonia using conductive diamond film electrodes (Tenne et al.) 409
1,2-Dichloroethane interface
Transfer of trifluoroacetylacetone across a water/1,2-dichloroethane interface (Doe et al.) 257
Differential electrochemical mass spectrometry
A novel differential electrochemical mass spectrometer (DEMS) with a stationary gas-permeable electrode in a rotational flow produced by a rotating rod (Fujihira, Noguchi) 457
Dimethylamine
Voltammetry of fullerenes C_{60} and C_{70} in dimethylamine and methylene chloride (Meerholz et al.) 425
Direct electron transfer
Direct electron transfer reactions between immobilized cytochrome *c* and modified gold electrodes (Cooper et al.) 267
Dissociative adsorption
A voltammetric study of glyoxylic acid behaviour on platinum single-crystal electrodes in sulphuric acid medium (Orts et al.) 355

Electrical properties
Electrical and electrochemical properties of TiO_2–SiO_2 porous glass ceramics and their application (Kokubu et al.) 123
Electrochemical mass-transport
Micro-rheology changes of Nafion® films with electrochemical mass-transport in hydroquinone solutions and in situ measurement using a quartz crystal analyzer (Muramatsu et al.) 247
Electrochemical oxidation
A voltammetric study of glyoxylic acid behaviour on platinum single-crystal electrodes in sulphuric acid medium (Orts et al.) 355
Electrochemical properties
Electrical and electrochemical properties of TiO_2–SiO_2 porous glass ceramics and their application (Kokubu et al.) 123
Electrochemical Rectification
Electrochemical rectification in CdSe + TiO_2 coupled semiconductor films (Liu, Kamat) 451
Electrocrystallization
Electrocrystallization, stripping and photoelectrochemical properties of HgSe/Se films on mercury electrodes (Mattsson et al.) 303
Electrodeposition
The electrodeposition of amorphous molybdenum sulfide (Bélanger et al.) 165
Electrode surfaces
Adsorption studies of octadecyltrimethyl ammonium bromide by electrochemical methods (Krznarić et al.) 341
Electron transport protein
Vectorial electron transfer in flavolipid/cytochrome *c* heterolayer (Ueyama et al.) 443

Flade potential
A mathematical model for current oscillations at the active–passive transition in metal electrodissolution (Koper, Sluyters) 31
Flavin
Vectorial electron transfer in flavolipid/cytochrome *c* heterolayer (Ueyama et al.) 443
Franck–FitzHugh model
A mathematical model for current oscillations at the active–passive transition in metal electrodissolution (Koper, Sluyters) 31

Fullerenes
Voltammetry of fullerenes C_{60} and C_{70} in dimethylamine and methylene chloride (Meerholz et al.) 425

Glyoxylic acid
A voltammetric study of glyoxylic acid behaviour on platinum single-crystal electrodes in sulphuric acid medium (Orts et al.) 355
Gold electrodes
Effect of the solution composition and the applied potential on the kinetics of roughness relaxation at gold electrodes in slightly acid electrolytes (García et al.) 237

H-D exchange
The influence of the single-crystal orientation on the electrocatalytic hydrogenation of benzene and the H–D exchange (Schmiemann, Baltruschat) 93
HgSe/Se films
Electrocrystallization, stripping and photoelectrochemical properties of HgSe/Se films on mercury electrodes (Mattsson et al.) 303
Humidity sensor
Electrical and electrochemical properties of TiO_2–SiO_2 porous glass ceramics and their application (Kokubu et al.) 123
Hydrogen transfer
Acoustic emission from a palladium electrode during hydrogen charging and its release in a LiOH electrolyte (Azumi et al.) 111

Impedance
Impedance measurements of a tin electrode in H_2SO_4 solutions (Bojinov et al.) 207
Integral equations
An efficient numerical method of solving integral equations for cyclic voltammetry (Bieniasz) 15
Interfacial excess entropy
On the interfacial excess entropy at the mercury–aqueous solution interface (Bordi, Carlà) 137
Isoalloxazine
Vectorial electron transfer in flavolipid/cytochrome *c* heterolayer (Ueyama et al.) 443

Langmuir-Blodgett film
Vectorial electron transfer in flavolipid/cytochrome *c* heterolayer (Ueyama et al.) 443
Layered dihydroxide matrices
Electrochemical characterization of manganese porphyrins fixed onto silica and layered dihydroxide matrices (Gaillon et al.) 435
Linear sweep voltammetry
A voltammetric study of glyoxylic acid behaviour on platinum single-crystal electrodes in sulphuric acid medium (Orts et al.) 355
LiOH electrolyte
Acoustic emission from a palladium electrode during hydrogen charging and its release in a LiOH electrolyte (Azumi et al.) 111
Lipoic acid
Electroanalysis of lipoic acid using a carbon paste electrode modified with nickel[II]-cyclohexylbutyrate (Sugawara et al.) 393

Manganese porphyrins
Electrochemical characterization of manganese porphyrins fixed onto silica and layered dihydroxide matrices (Gaillon et al.) 435
Mathematical model
A mathematical model for current oscillations at the active–passive transition in metal electrodissolution (Koper, Sluyters) 31
Mercury
On the interfacial excess entropy at the mercury–aqueous solution interface (Bordi, Carlà) 137
Mercury electrodes
An electrochemical study of tinidazole at mercury electrodes (Fonseca et al.) 277
Electrocrystallization, stripping and photoelectrochemical properties of HgSe/Se films on mercury electrodes (Mattsson et al.) 303
Metal electrodissolution
A mathematical model for current oscillations at the active–passive transition in metal electrodissolution (Koper, Sluyters) 31
Metal Sulfides
Surface analysis of electrochemically oxidized metal sulfides using Raman spectroscopy (Turcotte et al.) 195
Methylene Chloride
Voltammetry of fullerenes C_{60} and C_{70} in dimethylamine and methylene chloride (Meerholz et al.) 425

Microgravimetry
In situ compositional analysis of electrosynthesized cadmium telluride thin films by electrochemical quartz crystal microgravimetry (Wei et al.) 223
Modified gold electrodes
Direct electron transfer reactions between immobilized cytochrome *c* and modified gold electrodes (Cooper et al.) 267
Molecular electronic device
Vectorial electron transfer in flavolipid/cytochrome *c* heterolayer (Ueyama et al.) 443

Nafion
Micro-rheology changes of Nafion® films with electrochemical mass-transport in hydroquinone solutions and in situ measurement using a quartz crystal analyzer (Muramatsu et al.) 247
Nucleation and growth
The electrodeposition of amorphous molybdenum sulfide (Bélanger et al.) 165

Octadecyltrimethyl ammonium bromide
Adsorption studies of octadecyltrimethyl ammonium bromide by electrochemical methods (Krznarić et al.) 341
Organized Thiol Monolayers
Preparation and reversible behavior of organized thiol monolayers with attached pentaminepyridineruthenium redox centers (Finklea, Hanshew) 327
Organometallic compounds
Electrochemical study of uranium (IV) and (III) organometallic compounds in tetrahydrofuran by means of conventional microelectrodes and ultramicroelectrodes. Part II. Application to borohydride compounds—study of the stability of $Cp_2U(BH_4)_2$ (Hauchard et al.) 399

Palladium electrode
Acoustic emission from a palladium electrode during hydrogen charging and its release in a LiOH electrolyte (Azumi et al.) 111
Piezoelectric response to changes in surface stress of a palladium electrode in perchloric acid solution containing chloride ions (Seo, Aomi) 185
Parallel dual-cylinder microelectrode
Theoretical study of parallel dual-cylinder microelectrodes with a small imposed constant potential difference in static electrolyte solutions containing a reversible redox couple (Peng et al.) 1
Pentaminepyridineruthenium
Preparation and reversible behavior of organized thiol monolayers with attached pentaminepyridineruthenium redox centers (Finklea, Hanshew) 327
Perchloric acid solution
Piezoelectric response to changes in surface stress of a palladium electrode in perchloric acid solution containing chloride ions (Seo, Aomi) 185
Photo conductivity
Electrical and electrochemical properties of TiO_2–SiO_2 porous glass ceramics and their application (Kokubu et al.) 123
Photoelectrochemical cells
Electrochemical rectification in $CdSe + TiO_2$ coupled semiconductor films (Liu, Kamat) 451
Piezoelectric response
Piezoelectric response to changes in surface stress of a palladium electrode in perchloric acid solution containing chloride ions (Seo, Aomi) 185
Platinized platinum electrodes
Study of the relationship between voltammetric behaviour and electrocatalytic activity in the reduction of ClO_4^- ions at platinized platinum electrodes (Bakos, Horányi) 383
Platinum single crystal electrodes
A voltammetric study of glyoxylic acid behaviour on platinum single-crystal electrodes in sulphuric acid medium (Orts et al.) 355
Polarographic studies
An electrochemical study of tinidazole at mercury electrodes (Fonseca et al.) 277
Polymers
Modulation of the function of an enzyme immobilized in a conductive polymer by electrochemical changing of the substrate concentration (Haruyama et al.) 293
Protein electrochemistry
Direct electron transfer reactions between immobilized cytochrome *c* and modified gold electrodes (Cooper et al.) 267

Quartz crystal analysis
Micro-rheology changes of Nafion® films with electrochemical mass-transport in hydroquinone solutions and in situ measurement using a quartz crystal analyzer (Muramatsu et al.) 247

Raman Spectroscopy
Surface analysis of electrochemically oxidized metal sulfides using Raman spectroscopy (Turcotte et al.) 195
Redox centers
Preparation and reversible behavior of organized thiol monolayers with attached pentaminepyridineruthenium redox centers (Finklea, Hanshew) 327
Reduction
Study of the relationship between voltammetric behaviour and electrocatalytic activity in the reduction of ClO_4^- ions at platinized platinum electrodes (Bakos, Horányi) 383
Roughness relaxation
Effect of the solution composition and the applied potential on the kinetics of roughness relaxation at gold electrodes in slightly acid electrolytes (García et al.) 237

Silica matrices
Electrochemical characterization of manganese porphyrins fixed onto silica and layered dihydroxide matrices (Gaillon et al.) 435
Small constant potential difference
Theoretical study of parallel dual-cylinder microelectrodes with a small imposed constant potential difference in static electrolyte solutions containing a reversible redox couple (Peng et al.) 1
Solid-state
Solid-state electrochemical cell for characterization of thin films in the absence of liquid electrolyte (Kulesza et al.) 417
Steady-state voltammetry
General theory of steady-state voltammetry (Myland, Oldham) 49
Supported catalysts
Electrochemical characterization of manganese porphyrins fixed onto silica and layered dihydroxide matrices (Gaillon et al.) 435
Surface analysis
Surface analysis of electrochemically oxidized metal sulfides using Raman spectroscopy (Turcotte et al.) 195
Surface stress
Piezoelectric response to changes in surface stress of a palladium electrode in perchloric acid solution containing chloride ions (Seo, Aomi) 185

Thin films
Solid-state electrochemical cell for characterization of thin films in the absence of liquid electrolyte (Kulesza et al.) 417
Thin semiconductor films
Electrochemical rectification in $CdSe + TiO_2$ coupled semiconductor films (Liu, Kamat) 451
Tin electrode
Impedance measurements of a tin electrode in H_2SO_4 solutions (Bojinov et al.) 207
Tinidazole
An electrochemical study of tinidazole at mercury electrodes (Fonseca et al.) 277
TiO_2–SiO_2 porous glass ceramics
Electrical and electrochemical properties of TiO_2–SiO_2 porous glass ceramics and their application (Kokubu et al.) 123
Titanium
Titanium electrodeposition from aromatic solvents (Abbott et al.) 153
Two-dimensional crystal
Vectorial electron transfer in flavolipid/cytochrome *c* heterolayer (Ueyama et al.) 443

Uranium
Electrochemical study of uranium (IV) and (III) organometallic compounds in tetrahydrofuran by means of conventional microelectrodes and ultramicroelectrodes. Part II. Application to borohydride compounds—study of the stability of $Cp_2U(BH_4)_2$ (Hauchard et al.) 399

Viologen derivatives
Adsorption behavior of viologen derivatives on hanging mercury electrode surfaces (Kitamura et al.) 371
Voltammetric behaviour
Study of the relationship between voltammetric behaviour and electrocatalytic activity in the reduction of ClO_4^- ions at platinized platinum electrodes (Bakos, Horányi) 383
Voltammetry
Adsorption studies of octadecyltrimethyl ammonium bromide by electrochemical methods (Krznarić et al.) 341
